

Admin User Guide

For portal administrators managing companies and settings

1

Access the portal

Go to `pet-credit-portal.onrender.com` and log in with your admin email and password. Admins bypass OTP and go directly to the admin dashboard.

2

Set up email (first time only- for Super Admin)

Click **Email Settings** tab → enter the Gmail sender address and App Password → click **Save Settings** → click **Send Test Email** to verify. All OTPs to companies will use this email.

3

Create other admin accounts

Click **Admins** tab → fill in Name, Email, Password → click **Create Admin Account**. New admins can log in and access the admin dashboard immediately.

4

Monitor registered companies

Click the Companies tab to see all registered companies with their Total PCC, PPC, CO₂ saved, and entry counts. Use the search bar to find specific companies.

5

Download company reports

In the Companies tab, click **PDF** to generate a print-ready report or **Excel** to download a CSV with all PCC, PPC, and CO₂ data for any company.

6

Manage company accounts

Use **Edit** to update company name or email · **Reset PW** to set a new password if a company is locked out · **Delete** to permanently remove a company and all their entries.

7

Review access logs

Click the Access **Log** tab to see all login, logout, and registration events with timestamps and IP addresses. Use **Clear All** to reset the log when needed.

Superadmin note: The account `gandhijidaksh@gmail.com` is the permanent superadmin and cannot be deleted. All other admin accounts can be removed from the Admins tab.
