

# Indian PET Plastic Credit Framework — Companies Guide

COMPANY USER GUIDE

For companies entering PCC and PPC credit data

Powered by IIT Delhi Waste to Wealth (W2W) Initiative

# Register Your Account

## STEP 1

Go to [pet-credit-portal.onrender.com](https://pet-credit-portal.onrender.com) → click **Register** → enter your company name, email, and password (min. 6 characters) → you will receive a 6-digit OTP on your email → enter the OTP to activate your account.

1

### Visit the Portal

Go to **pet-credit-portal.onrender.com** and click **Register**

2

### Enter Details

Enter your company name, email, and password (min. 6 characters)

3

### Verify via OTP

You will receive a **6-digit OTP** on your email — enter it to activate your account

# Log In to Your Dashboard

## STEP 2

Enter your email and password → an OTP is sent to your email → enter the OTP to access your dashboard. **OTPs are valid for 10 minutes.**

### Login Steps

1. Enter your registered email and password
2. An OTP is sent to your email
3. Enter the OTP to access your dashboard

### Forgot Password?

On the login page click **Forgot password?** → enter your registered email → enter the OTP sent to your email → set a new password.

- ❏ OTPs are valid for **10 minutes**. Request a new one if it expires.

# Add Collection Credits (PCC)

## STEP 3

Click **Collection Credits (PCC)** tab → under Ledger Date select the Year, Month, and Day of the collection event (no future dates allowed) → select Collection Category → enter Weight in tonnes → enter ESG Score (0–100) → click + **Add Entry**. The PCC credit is calculated automatically.

1

### Select Ledger Date

Choose Year, Month, and Day of the collection event.  
**No future dates allowed.**

2

### Select Collection Category

Choose the appropriate category for the collection event.

3

### Enter Weight & ESG Score

Enter Weight in tonnes and ESG Score (0–100).

4

### Submit Entry

Click + **Add Entry**. The PCC credit is **calculated automatically**.

# Add Processing Credits (PPC)

## STEP 4

Click **Processing Credits (PPC)** tab → select the Ledger Date → select the Product Type → enter Weight in tonnes → enter ESG Score → click + **Add Entry**. The W factor and PPC credit are calculated automatically based on the product's service life and exposure factor.

1

### Open PPC Tab

Click the **Processing Credits (PPC)** tab on your dashboard.

2

### Select Ledger Date

Select the date of the processing event from the Ledger Date picker.

3

### Select Product Type

Choose the Product Type from the available options.

4

### Enter Weight & ESG Score

Enter Weight in tonnes and ESG Score, then click + **Add Entry**.

- ❏ The **W factor** and **PPC credit** are calculated automatically based on the product's service life and exposure factor.

# Understanding ESG Tiers

☆ IMPORTANT

The ESG bar shows your tier in real time as you type.

## Tier I

Score above 80

Multiplier:

## Tier II

Score 65–80

Multiplier: <sup>1</sup>

## Tier III

Score 50–65

Multiplier: <sup>2</sup>

## Ineligible

Score below 50

No credits awarded

# Edit or Delete Entries

## STEP 6

In the Entries table, click any weight or ESG score cell to edit it directly — changes save automatically. Click the × button at the end of a row to delete that entry permanently.

### Edit an Entry

In the Entries table, click any **weight** or **ESG score** cell to edit it directly — changes save automatically.

### Delete an Entry

Click the × button at the end of a row to delete that entry **permanently**.

- ❏ **Important:** Entry Date is the actual date the collection/processing event occurred. Record Date is automatically set to today's date when you submit the entry. Both are shown in the entries table and **cannot be edited after submission**.

# View Annual Summary & CO<sub>2</sub> Savings

STEPS 7 & 8

## Annual Summary

Click **Annual Summary** to see total PCC, PPC, combined credits, and total weight across all months in a chart and table.

## CO<sub>2</sub> Savings

Click **CO<sub>2</sub> Savings** to see estimated CO<sub>2</sub> saved from your collection and processing activities, broken down by entry with subtotals and a grand total.

# Export Your Report

STEP 9

Scroll to the bottom of the dashboard → click **Export Full Report (PDF)** for a printable report or **Export Full Report (Excel)** for a CSV file containing all PCC, PPC, and CO<sub>2</sub> data.

## Export Full Report (PDF)

A printable report containing all your credit and CO<sub>2</sub> data.

## Export Full Report (Excel)

A CSV file containing all PCC, PPC, and CO<sub>2</sub> data for further analysis.

# About the IIT Delhi Waste to Wealth Initiative

This portal is developed under the **IIT Delhi Waste to Wealth (W2W) Initiative**, which drives research, innovation, and policy frameworks for sustainable plastic waste management in India.
